EXPERIENCE

- Principal with **Murphy Hilgers Architects Inc.**, Toronto (1998 – present).
- Retail work includes: Project architect for \$30,000,000 retail mall upgrades at Bramalea City Centre and Sheridan Mall, Mississauga.
- Health care work includes Project Lead on \$225,000,000 Women's College Hospital Master Plan and Rezoning application in Toronto, Project Manager on \$180,000,000 Hôpital Montfort Hospital in Ottawa (currently under construction), Project Manager on \$350,000,000 William Osler Health Centre in Brampton (almost finished construction). This project was brought to schematic design stage and converted to a "Public Private Partnership" Design Build Finance procurement method. The team produced a standards-based "output spec" which was used in compliance review of the design build architects.
- Spoke at the Canadian Design Build Conference 2006 on "AFP, The New World in Ontario"
- Strong interest in sustainable design, serving on the office sustainability committee.
- Facilitator in the firm's innovative "Roundtable Sessions" where leading participants from the Healthcare section collaborate on discussions seeking solutions to topical issues.
- Advisory to OAA (Ontario Association of Architects) on CCDC 2 contract supplementary conditions and on liaison with Infrastructure Ontario (Provincial government)

- Responsible with other principals for marketing, project fees and budgets, staffing, initiatives in Vision Mission and Values, professional development, staff communications
